

Parents

“PROS”

- A day for DR appointments ***
- More family time **
- Possible better attendance
- Mentally relaxed/rested
- Homework could be done at school during the extra school time

“CONS”

- Not as consistent of an education
 - Lost instructional minutes during optimal instructional time (morning hours)
 - Long days, too much especially for the younger kids ***
 - Work week is 5 days – what will the kids do while the parents are at work on Fridays?
 - Long days for the teachers
 - Still have the kitchen running
- *Need a financial breakdown of cost for a school day (5 day week vs 4 day week schedule)*

Teachers

“PROS”

- 3 day weekends **
 - We save 3% to 5% (\$180k to \$300k yearly)
 - Might improve attendance
- Suggestion: Instead of a 4 day week – 5 day week, 4 in person with 1 distance learning*

“CONS”

- Longer days (both classroom and traveling back home from school) **
- Students attention at end of the day will be bad ****
- Test scores will drop for students who don't have parents at home helping them
- Childcare for parents that work
- Meals for the kids on the extra day off **
- Longer days may be ok for the older kids (Junior High and up) but hard for younger kids
- Longer day for the teacher

MISC Comments from Parents Meeting

- Translator at school board meetings

•Accountability: In normal business, if you make the same mistakes 3 years in a row, you lose your job. Why has the CBO been unhurt by her mistakes? Why did she get a job as a teacher when everyone else is "making sacrifices"? **

•\$80k/yr for LaMotta vs Tech person at about \$40k/yr - would also eliminate an annual service contract.
